

HELP OUR COMMUNITY SEVER TIES WITH ICE

What do we have to do with ICE operations?

A June 2018 Instagram post suggested that Akal Security, one of the for-profit companies established by Yogi Bhajan in 1980, was involved in child separations at the US border. Akal claims they have not interacted with separated families, but how can they be sure since the government failed to properly track parents and children?

Yogi Bhajan intended the for-profit companies to financially support the non-profit entities such as 3HO, Sikh Dharma, and related groups. That means a portion of the profit from Akal/ICE contracts funds our spiritual activities. If you believe this relationship is not in alignment with our values, please join our call to action.
